Description

Located in Felanitx, this building plot comes with a project for a contemporary home featuring a comfortable and functional layout, designed to make the most of both indoor and outdoor living.

The project comprises a two-storey home with parking space for two vehicles. The ground floor will accommodate the main living areas, including a spacious living and dining room, a kitchen equipped with high-end appliances and a full bathroom. This level will also feature three bedrooms, each with its own en-suite bathroom.

The upper floor will house a fourth bedroom with an en-suite bathroom, ideal as a master bedroom or an independent private retreat. In total, the property will offer four bedrooms, all with their own bathrooms, ensuring comfort and privacy.

The project also includes underfloor heating, providing year-round comfort and energy efficiency.

The outdoor areas will be designed to make the most of the Mediterranean lifestyle, featuring an uncovered terrace, spacious relaxation areas and a private swimming pool with its own terrace, creating different settings for outdoor living.

The location in Felanitx offers the tranquillity and traditional charm of Mallorca, with easy access to local amenities and some of the most beautiful coves in southeast Mallorca.

An excellent opportunity to acquire a building plot with an architectural project that combines contemporary design, functionality and private outdoor spaces in a typically Mediterranean setting.
