Description

This beautiful plot of land with a construction project is located very close to the sea, Cala Morlanda, and S'Illot. The project for the construction of a single-story house with a total area of 190 m² has already been approved by the Regional Government. The house, with a very practical and functional layout, with plenty of natural light, will feature a living room, dining room, and kitchen with access to the porch, terraces, and pool. It will also have three double bedrooms with en-suite bathrooms and access to the exterior. It will also feature a laundry room and a guest toilet. It is worth noting that the property is fully enclosed and has piped water. For more information about this project, please do not hesitate to contact us.
