Description

Grup Direct Real Estate presents to you:

Who hasn't ever thought about making a 360° turn in their life? Change your place of residence, your job, your way of life, get away from the monotony and have a quiet life, doing what you want and with the opportunity to be able to grow some of your own food?

If you are one of those who think like this, we have in the centre of the island, in the municipality of Es Migjorn less than 10 minutes walk to the village, and about 4kms from one of the most beautiful beaches of Menorca, Binigaus, this vast plot of land of 15.369m², almost nothing....

This rustic finca is authentic in the literal sense of the word. It has three rooms, one of which is a living/dining room with fireplace and open plan kitchen. It also has three bedrooms, a complete bathroom and a storage room. The other two spaces are used as garages.

The property has 8 solar panels, its own well, a swimming pool and five greenhouses of different sizes where you can grow all kinds of vegetables and fruits. There are also more than a hundred fruit trees and the essence of the Minorcan countryside.

Whether for a radical change of life as we mentioned at the beginning, or as a second home to escape from the hustle and bustle of the world, you should contact us to visit this property. We will be delighted to be the first step in your new life.
