Description

We are pleased to present an excellent opportunity to acquire a spacious parking space together with a large private storage unit in a seafront building in Figueretes, one of Ibiza's most sought-after areas. Both assets are being sold exclusively as a package and offer a unique solution for those seeking convenience, additional storage space, and a valuable investment on the island.

The parking space measures approximately 3.70 metres in width and 13.40 metres in length, providing enough room for two vehicles parked in tandem, or alternatively for one car and several motorcycles.

The property also includes an exceptional private storage unit of approximately 24 m², measuring 3.70 metres wide by 6.70 metres long. This is a rare feature in Ibiza, offering outstanding storage capacity for personal belongings, business equipment, sports gear, bicycles, or other valuable items.

The building's garage area has recently undergone refurbishment works, which are now nearing completion, adding further value to the property. In a location where both parking spaces and storage facilities are increasingly scarce and highly sought after, this combined offering represents an outstanding investment opportunity and a highly practical asset for residents and property owners alike.
